

CLIP-ON GC5

- * 10 DAYS CONTINUOUS POWER
- * LOW FUEL CONSUMPTION
- * LOW WEIGHT
- * 1000H SERVICE INTERVAL
- * LOW NOISE LEVEL

The Genmark CLIP ON generator set is designed for easy mounting directly to your refrigerated container. It has a standard pin mounting system, but can also be supplied with a clamp mount, often used with tank containers.

Due to the low fuel consumption and the large fuel tank (440 liters), our CLIP ON unit guarantees maximum operating hours. With a Tier4F and Carb Compliant engine, the Genmark CLIP ON will also be available for the US market.

The GC5 is able to provide continuous power for 10 days, a real asset when it comes to long transfers from one end of the country to the other or when shipping by sea.

ENGINE

Yanmar STAGE V
2.286 liters
70 dB
1.8 liters @ 380 V / 50 Hz consumption
13.3 liters oil capacity

ALTERNATOR

RFL 24 kW
94.% efficiency

TANK

440 liters
