

- * LOW NOISE LEVEL
- * LOW FUEL CONSUMPTION
- * LOW WEIGHT
- * 1000H SERVICE INTERVAL
- * EXTRA ROAD CLEARANCE

The Genmark TRUCK UNIT is developed for tractors and is positioned on the left or right side of the truck.

A tractor is normally equipped with 2 tanks, by removing one tank we can install our Genmark Truck Unit in place of the tank. This unit is connected to the truck's main tank and is the lightest power unit available.

The Truck Unit is ideal when trailers are regularly changed by the same driver or when the trailer does not have space for a generator.

Our TRUCK UNIT provides continuous power, even when the truck engine is not running.

ENGINE

Yanmar STAGE V
2.286 liters
70 dB
1.8 liters @ 380 V / 50 Hz consumption
13.3 liters oil capacity

ALTERNATOR

RFL 24 kW
94.% efficiency

TANK

Direct connection to the truck

CONTROLLER

MarkOne® Controller
5 inch TFT screen
Electric fuel meter
GPRS and data
Solid state relay

SAFETY

Oil level & water temperature safety
Lateral Protection Certification
E4*73 R01/01*0257*00
EMC Certification
